☎ (+86)177-1707-1290 ✉ celery2022@sjtu.edu.cn 🌐 1cupcelery.github.io 📍 Shanghai, China

Education

Shanghai Jiao Tong University

Shanghai, China

John Hopcroft Honors Class, Zhiyuan College

Aug 2022 – Jun 2026

B.Eng. in Computer Science and Technology

- GPA: 3.76/4.3 (88.75/100)
- Relevant Coursework: Mathematical Analysis II (93), Combinatorial Mathematics (91), Probability Theory (91), Computational Complexity (98), Online Algorithms (95), Statistical Learning Theory (97)

Research Experience

Shanghai Jiao Tong University

Shanghai, China

Advised by Yuhao Zhang and Chihao Zhang

Jan 2026 – Present

- Studying the adaptivity of the Probemax problem.

DIMACS, Rutgers University

Piscataway, NJ

Advised by Kangning Wang and Lirong Xia

Aug 2025 – Dec 2025

- Studied the existence of α -winning and α -dominating committees of size k in an impartial culture when the number of candidates m is much larger than the number of voters n .
- Established two sharp thresholds for α : an α -winning committee exists w.h.p. iff $\alpha < \frac{k-1}{k}$, and an α -dominating committee exists w.h.p. iff $\alpha < \frac{k-1}{2k}$, when m is sufficiently larger than n and $n = \omega(1)$.
- Wrote a manuscript based on the results.

Shanghai Jiao Tong University

Shanghai, China

Advised by Yuhao Zhang

Jul 2024 – Mar 2025

- Studied the online load balancing problem for random order inputs, aiming to close the gap between the $\Omega(\sqrt{\log m})$ lower bound and the $O(\log m / \log \log m)$ upper bound by designing an $O(\sqrt{\log m})$ -competitive algorithm, where m is the number of machines.
- Investigated the online graph balancing problem, which is a special case of the original problem, trying to analyze the competitive ratio of a newly-designed algorithm in this case.
- Participated in TCS reading group every week.

Publications

Authors are listed alphabetically unless otherwise noted.

Winning in the Limit: Average-Case Committee Selection with Many Candidates [\[arXiv\]](#)

Yifan Lin, Shenyu Qin, Kangning Wang and Lirong Xia

In *Proceedings of the 27th ACM Conference on Economics and Computation* (EC 2026)

Teaching Assistantships

Algorithm Design and Analysis (CS3950), Shanghai Jiao Tong University

Spring 2026

Honors and Awards

Zhiyuan Honors Scholarship (Top 10%), Shanghai Jiao Tong University

2022, 2023, 2024, 2025

Skills

Programming C++, C, Python, Rust**Tools:** L^AT_EX, MATLAB, Coq**Languages:** Mandarin (Native), English (TOEFL: 104)
